

Fantasy

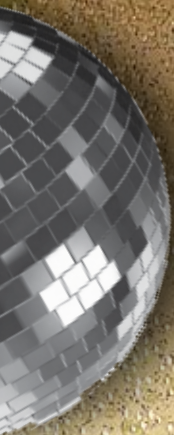

Paint Effects

Once they used to tell us: "Enough of your fantasies, they'll get you nowhere."

But today we know. A fantasy, when it's good, takes us to the most wonderful, the most amazing, the most beautiful places on earth.

Each such combination of effect plus paint produces a unique creation – a fantastic wall or an exceptional look. In a style that is individual and most personal.

The wall was painted with TambourFlex in 271A shade and Glass Beads were added on top

Fantasy

A smooth and splendid touch of light refracted into a rainbow of colors by means of the dry sprayed application of Glass Beads. Silver glitters can be added to the Glass Beads to obtain an even more impressive effect.

GOLD-LUSTRE

Once upon a time adventurers would voyage to Africa or America in search of gold. Today people of adventure paint their walls in their favorite shades, turning them into treasures of gold – born of golden fantasies.

effect

The wall was painted with Supercryl in 4191P shade with Fantasy Gold-Lustre applied on top with a spatula

SHIMMER

We all have a bit of chameleon in us. One minute you're here, two hours later you're there. Now you paint your wall in your own shade, two hours later you're painting it with changing shades.

effect

The wall was painted with Supercryl in OW203P shade with Fantasy Shimmer applied on top with a spatula

PEARL

effect

Design your room or your wall in your chosen color.
Now add to it a pearl effect
– as you enter a seashell
and step into a dream.

The wall was painted with Supercryl in 4065P shade with Fantasy Pearl Effect applied on top with a spatula

GLITTER

effect

That's the way you like it
– sparkling, bright, radiant,
glittering. Daring. Like you.
Now that you've painted
your room in your chosen
shade, make it glitter! With
sparkled fantasies.

The wall was painted with Supercryl in 6171P shade with Fantasy Glitter applied on top with a seaweed sponge

GLASS FLAKES

A smooth and splendid touch of light refracted into a rainbow of colors by means of the dry sprayed application of Glass Flakes. Silver glitters can be added to the Glass Flakes to obtain an even more impressive effect.

fantasy

The wall was painted with TambourFlex in 1093D shade with Fantasy Glass Flakes on top

GLASS BEADS

A fabulous multi-colored reflection by means of the dry sprayed application of Glass Beads. Silver glitters can be added to the Glass Beads to obtain an even more impressive effect.

fantasy

The wall was painted with TambourFlex in 6011P shade with Fantasy Glass Beads on top

SPARKLES

For a particularly splendid look on a wall or ceiling spraying the glitters with a spray gun on wet paint. Glitters can be combined with Glass Beads or Glass Flakes.

fantasy

The wall was painted with Tambourflex in 7164T shade with Glitters

GLOW in the DARK

Water-based acrylic paint that glows in a green-blue shade in the dark. For application on coated based layer only. The paint glows for 2-8 hours depending on charging times and level of darkness.
